HEALTH & SAFETY DATA SHEET

1 OF 2

GLASS CLEANER

SUPPLIER DETAILS: OAK INDUSTRIAL SUPPLIES
HAMILTON ROAD
SUTTON IN ASHFIELD
NOTTINGHAMSHIRE
NG17 5LN

TELEPHONE NO: 01623 442222

COMPOSITION

An aqueous solution containing alcohol and glycol ether solvents, anionic surfactant, organic sequestering agent and water soluble dye.

VISUAL CHARACTERISTICS

A free flowing blue liquid with semi stable foaming properties and a sweet characteristic odour.

FLAMMABILITY

Non combustible.

TOXICITY

Considered low in toxicity. Assessment in accordance with the classification, packaging and labelling of Dangerous Substances Regulations 1984 results in no mandatory warning devices necessary. This product is free of caustic alkalinity.

HANDLING:

Avoid bodily contact an inhalation of volatile solvents. Skin contact problems not normally apparent. Avoid smoking during use.

STORAGE:

Store in containers provided with closures tightly secured at a temperature not exceeding 40°C. Keep away from children.

PRODUCT USES:

A neutral solvated detergent cleaner for glass and other impervious reflective surfaces.

ACCIDENTAL RELEASE MEASURES:

Minor Spill: Hosing away with water is usually sufficient.
Major Spill: Absorb with sand or granules prior to disposal in accordance with Local Authority regulations.

PRODUCT IN CONTACT WITH SKIN:

Wash with soap and water. In case of irritation, apply skin moisturising cream.

PRODUCT IN CONTACT WITH EYES:

Wash thoroughly for at least ten minutes with fresh water. If symptoms persist, seek medical advice.

PRODUCT INGESTED:

Provide a plentiful supply of water and/or milk to drink and seek medical advice.

OTHER INFORMATION:

This is a product with a high safety tolerance in use but should, in common with all detergent based preparations, be used with caution and in accordance with the instructions shown on the product label.
