

PRODUCT PERFORMANCE DATA SHEET

4544 PUNCTURE RESISTANT GLOVE

The best glove for handling debris and general waste, **and has good resistance to needles and syringes under normal working conditions.**

American cut glove manufactured in split cowhide treated leather. The glove also has a blue nitrile back cover to keep the hand cool.

The lining is made with heavy weight knitted dyneema fibre, interwoven with very fine stainless steel thread. This will give the glove a superb resistance to wear. Combined with superb comfort and dexterity it will provide the user with an excellent grip on wet or dry surfaces.

The Palm of the glove is treated to resist oils or greasy substances that normally may be absorbed through the leather.

The glove has also a 7cm safety cuff to protect the wrist, and the hand artery.

The glove is available in size 8, 9 & 10.

Main Uses:

Most suited for hand protection in an extreme rough environment.

Washing Instructions:

Wash and dry at 40oC.
